## Campari Group Press Release Malware attack: update on IT systems recovery

**Milan, November 18<sup>th</sup>, 2020**-Following the previous press releases on the malware attack, Campari Group informs that the ongoing recovery of IT systems is progressing according to plans. Particularly, the manufacturing and logistics activities as well as the processing of sales orders across main markets have been resumed and are regularly functioning.

Having stabilized operations, Campari Group is focusing on a full restoration of all the remaining business applications and systems so as to restore all services to their previous status.

Concomitantly, the investigation on the matter and all the activities aimed at the protection of the involved subjects, are ongoing, with the support of legal and cyber-security experts and in full cooperation with relevant authorities.

Campari Group remains committed to maintain a regular and transparent dialogue with its stakeholders on this matter.
