New Packaging for Entire SKYY Line

The flavors will debut SKYY's new ultra premium packaging. SKYY revolutionized the super premium vodka category ten years ago with the introduction of its signature cobalt blue bottle. The new packaging system now allows additional products to be added quickly with SKYY style and sophistication.

The entire SKYY line of vodkas including: SKYY Vodka, SKYY Spiced, SKYY Berry, SKYY Vanilla, and SKYY Citrus will feature the cobalt blue bottle with sophisticated new touches including a stylish new cap, sleek neck design and an elegant consumer-preferred silver SKYY logo for SKYY Vodka and color-coded logos for each flavor to clearly differentiate Flavors from the core brand.

"Consumers choose SKYY many times because of the cobalt blue bottle," added Greggor. "These stylish packaging changes reflect our commitment to be a brand leader in spirits packaging."

Pricing for the new flavors will be parity priced with SKYY Vodka and will begin hitting retail stores in April in 750 ML, 1L, 1.75L and 50 ML sizes. The new brands will be supported by aggressive marketing support including print and outdoor and on premise and off premise promotional support.
